Justice for Everybody Harms Nobody

Three Cents

DIRECT CREDITS SOCIETY IS NOT CONNECTED WITH, NOR INTERESTED IN, ANY OTHER ORGANIZATION OR MOVEMENT

BY ALFRED LAWSON

UNLESS YOU KNOW THESE THINGS YOU ARE NOT EDUCATED

THE DIRECT CREDITS SOCIETY is a non-political association founded primarily to eliminate pauperism. It is organized to operate perpetually as a safeguard for everybody's economic interests without interfering with their political, religious or personal inclinations.

THE PLATFORM of the Direct Credits Society is based upon the economic plan described in the book, "Direct Credits for Everybody," by Alfred Lawson, which shows how everybody must stand together economically for self-preservation, whether standing together otherwise or not.

THE OBJECT of the Direct Credits Society is to secure as large a membership as possible, without fees or other obligations, to express their economic convictions collectively through their officers before Congress for the enactment of laws beneficial to everybody.

THE BASIC PRINCIPLES of the Direct Credits Society are to uphold the American form of Government; to stand for Capitalism with improved finance; to harmonize Capital and Labor; to defend weak children and feeble old folks; to demand square treatment and better living conditions for everybody; to give a higher value to human beings than money.

THE DIRECT CREDITS SOCIETY has no assets or liabilities. No one is authorized to make agreements for this Society either verbally, in writing or otherwise. This Society has no agents or representatives.

THE DIRECT CREDITS SOCIETY has honorary officers who contribute their services without pay. Services, time, or material of any nature whatsoever, must be contributed to the Direct Credits Society free from all expenses.

THE DIRECT CREDITS SOCIETY is planned, built and operated according to Natural Law, so that it can perpetuate itself by following the rules and principles promulgated in the Literature of Alfred Lawson.

Anybody and everybody, irrespective of race, creed, nationality, political faith or personal inclinations are drawn into the Direct Credits Society, pro tem, and as long as they can help to uplift mankind to a higher state of intelligence and efficiency and continue to obey the rules of the organization they remain within, but when they fail to click prop-

erly, then they unceremoniously pass to the outside of the body again.

By this natural method, the Direct Credits Society manages to run along smoothly from year to year without friction or tearing itself to pieces from the inside and is gradually growing up from a healthy infant into a gigantic adult.

Growth takes its own time to extract the useful elements for structural purposes and eliminate the barnacles that retard progress.

According to LAWSONOMY mankind must work together as a body and in order to do so it must adopt the same procedure as other natural bodies.

It must draw into itself human beings without distinction to race, religions, politics, nationality or personal inclinations and use them for constructing and operating a workable formation and it must pass out of itself all things that are not useful or are of a destructive nature.

Human beings that have already proved useful in building up the social structure of mankind to its present shape are mainly inventors, industrialists, farmers, merchants, professionals and working people who produce and distribute the wealth of the world.

Human beings that are of a destructive nature and have brought internal decay within the social body are mainly financiers and their touts who do nothing towards the production and distribution of wealth, but absorb it through a fraudulent money tribute system and then stop the wealth producers from developing themselves in a natural and progressive way.

Therefore the people acting as a body must pass these useless and

degrading financiers and their slippery touts out as waste matter and the sooner it is done, the sooner they will be able to live in a natural and healthy way.

These money maniacs clog up the social machinery and cause the different organizations thereof to tear one another to pieces. They stop Truth from being known and uphold ignorance in order to enslave the people by and through its pernicious ravages of the human mind.

By controlling all avenues of

the earth or sun nor do they make them run about in space, nor do they make cosmic elements that make possible the heat from the earth and sun that causes weather currents that carry water from the lakes and rivers to the farms that grow the food for the people.

To do such things requires the planning and supervision of a greater mind than that of man and LAWSONOMY teaches you how that greater mind accomplishes such things.

If one will apply Lawsonomy rules to his business he will find sooner or later that the world will treat him all right. But if he continues to apply the financiers' rules to his business he will find sooner or later that the world will treat him all wrong.

The work of the Direct Credits Society is to organize the intrinsic parts of the human race into one complete whole that will act together in unison for the success of the entire body.

Those intrinsic parts that we are organizing are the constructive parts that produce and distribute all of the wealth of the world. They are the inventors, industrialists, farmers, merchants, professionals and working people. Those who produce the wealth shall have it is the dictum of Direct Credits for Everybody.

Now, the producers of wealth can have and enjoy it whenever they are sensible enough to stand together for a fair and square program that will give a purchasing power to everybody equal to their productive power that affords Justice to Everybody and harms nobody.

So the business people must stand shoulder to shoulder with the working people in this great organization and help to build an efficient and intelligent body in which all parts thereto will work together in peace and harmony for the common good of everybody.

Lawson's Direct Credits Plan is the balance wheel that will save the world from financial anarchy and slavery.

The people can have Direct Credits for Everybody whenever they are ready to stand together for it. As it will benefit everybody and favor nobody, there is no reason why the people should not accept it at once. It is now within their power to do so. All they have to do is to say they want it.

Therefore, the Lawson program should be brought to the attention of everybody as quickly as possible that misunderstanding and strife shall cease among mankind.

So, as yesterday is gone and tomorrow never comes, you must make the best of today.

Time is but a flash of consciousness — now you have it and now you don't. To waste it you misuse the moment of your existence.

So help organize humanity into a complete whole through the Direct Credits Society and DO IT NOW WHILE YOU HAVE THE CHANCE.

STAND TOGETHER

I STAND FOR THE AMERICAN
FORM OF GOVERNMENT

I STAND FOR CAPITALISM
With IMPROVED FINANCE

I STAND FOR HARMONY
BETWEEN CAPITAL AND LABOR

I STAND IN DEFENSE OF
CHILDREN AND OLD FOLKS

I STAND FOR BETTER LIVING
CONDITIONS FOR EVERYBODY

IF YOU STAND FOR THAT THEN
WE SHOULD STAND TOGETHER

—ALFRED LAWSON.

publicity and learning they spread falsity and teach putrid ideas long since dead. To enable them to ride the people they force into their minds all the idiosyncracies of the ages which crushes all chance for intelligent life out of them.

Direct Credits for Everybody tries to open the minds of the people so they may see and understand things as they are and not as the financiers and their touts make them believe they are in order to defraud them of their earnings.

These financiers did not make

control all avenues of publicity and learning and miseducate him into their degraded schemes of cheating one another.

The financier forces the business man to uphold the interest collecting swindle, which system finally turns and crushes him. When that happens he then blames the world for his misfortune, but he should blame himself for upholding such a system.

The world is just what you make it through the principles that you advocate and uphold. As you give to the world so you receive from the world.
