Justice for Everybody Harms Nobody

Three Cents

HEY FOLKS

THE FINANCIERS HAVE KNOCKED YOU DOWN BUT YOU ARE NOT OUT YET — GET UP

BY ALFRED LAWSON

UNLESS YOU KNOW THESE THINGS YOU ARE NOT EDUCATED

How did a little bunch of alien financiers get control of the American banks and money, take away more than 200,000 factories from American Manufacturers, put out of business more than two million American store keepers, take from American farmers more than three million farms, take from the American working people more than six million homes, take from the American people as a whole more than three hundred billion dollars of property, sign the American people up for interest-bearing indebtedness of more than three hundred billion dollars and give absolutely nothing in return for it?

Well, the answer to that question is easy to understand if you would like to know the truth about it.

FIRST, they told the people how easy it was for Everybody to make a lot of money playing their game—the Interest Collecting Swindle—and the people were foolish enough to believe that they could play the financiers' game and win.

You people think that you will get something for nothing by saving a hundred dollars and loaning it on interest. You don't realize that when you get Six Dollars for interest on One Hundred Dollars that by the same process the financiers swindle you out of One Thousand Dollars in purchasing power. You don't understand how that is done, but the financiers do. The Interest Collection Swindle is the Financiers' game, not yours. Until you understand that and Abolish Interest altogether, you are bound to be skinned of everything you think you own or you think you can earn.

Didn't you know that while you were collecting six per cent interest that you had to give it back to the financier again plus 194 per cent for good measure? Don't you know that you are thereby helping to run up an indebtedness of over Three Hundred Billion Dollars (\$300,000,000,000) that must be paid according to agreement?

Don't you know that there is not, now, nor has there ever been Twenty Billion Dollars of money in America? So how are you going to pay that much interest annually on the total Federal, State, County, Municipal and Public and Private Indebtedness which is growing up to mountainous proportions.

Now what do you suppose all of these numerous taxes go for?

Most of the Taxes go to meet the interest on the indebtedness. Don't you know that?

Let me tell you something right now before I forget it. Your annual interest indebtedness is Twenty Billion Dollars which is more than there is money in the United States of America and your total indebtedness is Three Hundred Billion Dollars which at the present shrunken condition of our national wealth is more than there is wealth to back it up.

So right now our creditors, the Financiers, according to Law can throw this nation into bankruptcy and take every farm, factory, store and home away from the people to pay that indebtedness. Can't you understand that?

Are you foolish enough to think you own property under this Interest Collection Swindle? Do not kid yourselves, people, do not kid yourselves. If the people paid their indebtedness they would have no property left for themselves. The financiers would have it all.

You have not only pawned your homes, factories, stores, farms and future earnings but you have pawned the lives of your children who will have to pay your back interest after you are dead, as long as they live.

That is a nice inheritance for you to leave to your children, isn't it? You hand down an indebtedness of \$300,000,000,000, with ever increasing compound interest for your children to try to pay.

SECOND, they concocted a money and credit system that nobody could understand and manipulated it in such a manner that they absorbed four-fifths of the people's earnings.

The financiers make their own laws and make it legal to charge a tribute for the use of money at 6 per cent interest. But by and through a crooked Credit System they actually charge the people 200 per cent interest on the usable supply of money.

The Financiers make laws against usury but still make you pay 200 per cent on the usable supply of money. That is accomplished through the gold trick. They tell the people that it is legal for them to charge interest on

twelve credit dollars for every gold dollar they have in their vaults.

There is no such thing in existence as credit dollars, but if the alien financiers have in their vaults, say five billion gold dollars, they claim the right by hocus pocus methods to charge the people of the U.S.A. interest on sixty billion fictitious credit dollars. They actually tell the people that there are sixty billion dollars on deposit in the banks of the U.S.A. when there has never been during the history of America as much as ten billion usable dollars at any time.

THIRD, they got control of every avenue of publicity so that they can Educate the people as they want them Educated and thus perpetuate the Interest Collecting Swindle, with the people's consent.

The financiers have loaned money to most of the newspaper owners and are strangling them to death. They will not permit them to tell the people how they are being Swindled under threats of taking their plants away from them. The Editors of the newspapers everywhere would like to expose the financiers, but their hands are tied and they cannot tell you what they would like to tell you.

The Direct Credits Society stands for the freedom of the press and all honest editors in this country would like nothing better than to show up the greatest of Alien Swindlers that ever infested this earth. But their hands are tied. They get paid for their work just as working men get paid for their work and they must do as they are told or get out.

But the real curse of the century is the RADIO which is owned and controlled by the Alien Financiers and is used to stupefy and degrade the minds of the American people.

Before the word Radio was thought of, I offered that method of transplanting sound as a great blessing to humanity in my book "BORN AGAIN" but like all great inventions the Alien Swindlers got control of it and now use it to train the mentality of the people as that of sheep instead of human beings.

The owners of the Radio will allow no one, no matter who it is, to tell the people about the Interest

Collection Swindle as is shown up by me. Make no mistake about that.

If you think that the owners of the Radio are fools enough to let anybody tell you over the radio how they skin you then that only proves to what extent they have devalued your reasoning faculties.

So, you can't learn how you are swindled in the newspapers and you can't learn how you are swindled over the radio.

Now can you learn how you are swindled by going to college?

Will some one tell me what you learn by going to college anyway, aside from tipping your hat to a financier who throws you a bone, or, to know which fork to eat your soup with.

I have been investigating those graveyards of past masters for the last fifty years and I have yet to find something they told me that was exactly right. Everything they teach has something wrong with it.

In 1908, when I offered to teach a class in all American Colleges by mail, aeronautic engineering, free of charge, the Deans of the different Colleges acted like a lot of Donkeys about it. They just brayed with hilarity. Thought I was telling them a funny joke. The idea of my wanting to teach the students how to build airliners when there were no airliners was just too amusing for anything. Their greatest professors proved mathematically that it could not be done.

But even mathematicians have their good qualities and after I built and flew the first airliner from Milwaukee to Washington and back again the same professors proved that it could be done.

Wonderful place to get an education, isn't it? They prove a thing can't be done until it is done and then they prove that it can be done — all by their peculiar theories.

They also proved in those queer places that Radio, Electricity, Telephones and Automobiles were impossible until they were produced and operated, then they proved that they were possible.

Is it any wonder that people who go to college get daffy and learn to prove that something is both impossible and possible.

They prove that which is, is that which ain't.

What do they teach a credulous student at College for Economics? Uneconomics.

Everything they teach you is upside down. I never knew a college professor that could give a true definition of the word Economics.

We send men in overalls to teach college professors the definition of Economics, but they almost have to knock their blocks off to do it.

What do they know about the foundation of Physics?

Nothing.

There is not a college professor in the world today that can tell you the cause of the movement of matter unless he has read that little brown book of mine called CREATION.

They say that nobody knows the cause of the movement of matter.

Nobody ever would know if the world waited for the colleges to explain it.

What do they know about history?

Just an outline.

I have investigated a number of histories during my life and found that seventy-five per cent of the contents of all histories are downright lies or misrepresentation of facts.

What do they know about Law? Only what the financier teaches them.

The financier's Law is based upon the theory that it is right to steal from the people what they produce through the Interest Collection Swindle. Their Law is like their mathematics, they can prove anything they want to prove with it.

What do they know about mechanics?

They teach kindergarten mechanics, that's all.

If I tried to make those collegians understand something about real mechanics they would not know what I was talking about.

They would hee haw worse than when I offered to educate them in aeronautic engineering before there was such a thing.

Do they teach you physiology? Not so I can notice it.

How could they teach you physiology when they do not

understand physics?

How can they understand physics when they know nothing about economics?

They really do not teach you the basic law of anything in college. They guess at everything fundamental and call it Theory.

They lie like financiers and call it education.

A degree from a College is but a certificate of flimflamism, that's all.

Any swindler who will contribute a large enough sum of money to a College can obtain a Doctor of Laws Degree without passing an examination for it. All one has to do to get such a degree is to prove one's ability to drive donkeys into blind alleyways.

If they told you the truth in the colleges, in the newspapers, magazines and books and over the Radio, the financiers could not skin you out of four-fifths of everything you earn. So they stuff your mind with lies and you think that you are educated.

Not only do the financiers use your brains as hooks for their lies and educate you as they do their sheep, goats and donkeys, but they put the notion into your heads that you are doing your own thinking. They make you believe that you are running your own affairs when you have absolutely nothing to do about it except to holler occasionally.

FOURTH, they put their agents in every organization, get control of them and set them to fighting against one another and make each think the other is responsible for their troubles.

Well, the United States of America is now moth-eaten by the Financiers' Touts. They literally infest every organization and avenue of publicity. You cannot turn around without being gnawed by one of them.

You cannot show me an organization in America (except the Direct Credits Society) whose key positions are not controlled by agents of the Financiers.

MANUFACTURERS' ASSOCIATIONS?

During the many years that I was a manufacturer, I never knew of a manufacturers' association that was not run by agents of the financiers.

MERCHANTS' ASSOCIATIONS?

Well, during the twenty-five years that I was building up the Aircraft Industry and Airlines, I was invited by merchants' associations in almost every city and town in America to visit them in reference to establishing airports or airplane factories in their territories, and in every case, without exception, when it came to an actual deal, it was the Financier with whom I had to talk business.

FARMERS' ASSOCIATIONS?

The first thing I can remember doing in this life was picking potato bugs off of the vines on a farm. As I grew up and knocked about the country, earning an honest living, I worked as a laborer on many farms and always took an interest in farm work. During my whole life I have never known of a farmers' organization that didn't have an agent of the financiers in a key position, advising farmers what was best for them to do in a financial way.

LABOR ORGANIZATIONS?

The first years of my life found me a laborer. I sold newspapers and blacked boots for a living as a child. Worked in a furniture factory, in a stove factory, in a carpet factory, in a foundry and as a house painter and farmer. Then traveled all over the world as a coatmaker and, being stranded in Australia as a young man, had to work my way back to America as a common sailor.

In my book, "BORN AGAIN," copyrighted in 1904, I stood squarely back of the laboring classes as against the Swindling Classes. But during the quarter century I mingled with, and did business with big financiers, I learned that they have agents who act as go-betweens and who will not permit the top leaders of

Labor Organizations to publicly announce that INTEREST must be abolished.

POLITICAL ORGANIZATIONS?

Although I have never taken an active part in politics, still I have had exceptional opportunities to study how the political game is played.

While building up the Aircraft Industry and Airlines, I was invited to Washington and the White House many times to meet the different Presidents of the United States, as well as to meet the different Cabinet Officials, United States Senators, Congressmen and men in all walks of life who make, administer and interpret the laws of this country.

So, in making a complete study of the American political setup, I discovered that every party, both conservative and radical is influenced by agents of the financiers.

In 1919, after I had invented, designed, built and flown the first airliner from Milwaukee to Washington, a picture was taken of a group of U. S. Senators and other high officials including the Secretary of War, and myself, at which time a financier said to me, "The Senator who stands next to you is to be the next President of the United States."

Sure enough, a year later, true to the financier's statement, the Senator was nominated and elected President of the United States of America.

PUBLISHERS' ORGANIZATIONS?

Well, I devoted several years to publishing magazines, newspapers and books, and I can truthfully say that I know of no publishers' organizations that are not either controlled, throttled or influenced by Financiers.

SOLDIERS' ORGANIZATIONS, PROFESSIONAL ORGANIZATIONS, CHARITY ORGANIZATIONS and EDUCATIONAL ORGANIZATIONS are all dominated by agents of the financiers.

It is these touts who are stationed in the key positions of all organizations that cause the people to fight each other and whip themselves.

If the people will refuse to listen to the touts who betray them they will not whip themselves and the whole of the wealth produced by the farmers, manufacturers, merchants and laboring people will go to those who actually produce it and each will receive that portion in purchasing power that belongs to him or her instead of it being gobbled up by the parasitic financier who neither plants nor builds but absorbs everything.

I am trying to show the people how the financiers through their touts pull the strings that make everybody fight each other so that the financiers can control and rob them all.

If the people will stop fighting themselves at the instigation of the financiers' touts, then each can retain his or her share of the benefits of the wealth that is produced for all by the combined efforts of everybody.

Americans, are you not ashamed of yourselves to let a little bunch of Alien Slickers make you fight each other until you whip yourselves out of all of your own property and then make slaves of yourselves?

That little bunch of Alien Financiers, numbering less than twenty men, many of whom have never set foot on American soil, are now making 130,000,000 American people whip themselves into slavery.

Because the manufacturer fights others the financier takes his factory away from him through the interest collecting swindle.

Because the farmer fights others the financier takes his farm away from him through the interest collecting swindle.

Because the workingman fights others the financier takes his home and job from him through the interest collecting swindle.

Because the soldier fights at the instigation of the financier he loses everything through the interest collecting swindle.

Because politicians betray the people instead of working for the people they lose everything through the interest collecting swindle.

So until the 130,000,000 Americans stop fighting among themselves at the suggestion of organized leaders, agents of the financiers, who pretend to be friends, but in reality are foes, they are licked.

Yes, the whole American people are licked by a handful of alien slickers who care nothing for America, its Constitution, its Flag, or its Form of Government.

Any Organization that will not agree to Abolish Interest is a club used by the financier to make you whip yourself.

Unless Interest is Abolished then nothing else counts as far as the people are concerned.

The issue is INTEREST and rob the people or NO INTEREST and not rob them.

So, there you are—you can take your choice.

From now on watch these big Alien Slickers who, by the most disreputable methods known in history, are trying to steal the United States of America from the American people. The Direct Credits Society will help you to stop this diabolical theft.

Remember the Direct Credits Society does not care what race you came from, what religion you believe in, what political party you belong to, nor what your personal inclinations are: all we stand for are your economic rights. Such rights as you must have to make it possible for you to live honestly and to support your loved ones decently.

Neither does the financier care what race, religion, political party or labor organization you belong to, they will skin you alive just the same.

So the people must stand together in their own Organization—The Direct Credits Society—and Abolish Interest in order to get a purchasing power equal to their productive power that gives Justice to Everybody and Harms Nobody, in order to obtain what rightfully belongs to them.

The International Financiers have punched the people of all races, nations, religions, political parties and professions into a state of semi-consciousness. They have knocked everybody down and kicked them in the stomach; but people, hear me, you are not completely knocked out yet.

The people have lost every battle they have ever fought with the financial swindlers because they have received their training from the financiers' coaches.

The financiers' coaches have invariably trained the people to whip themselves.

But people, a new kind of a coach has come to train you. This new coach is going to show you how to win, not how to lose. So, if you break away from your old habits of following the advice of your enemies' coaches there is still a chance for you to get up on your legs again and win this fight against the financiers.

Your new coach has some powerful punches he will teach you to use. The first one is ABOLISH INTEREST.

If you will just swing that first wallop he shows you, straight to the jaw of the financier and follow it up with a few more new ones that he will teach you then that long battle for emancipation will suddenly come to an end, and your old arch enemy, the financier, will take your present place upon the ground as the sprawler.

So, listen to your own Coach as he shouts through the BENEFACTOR, HEY FOLKS, the Financiers have knocked you down but you are not out yet. GET UP—feint with your left and strike with your right and YOU, THE PEOPLE OF AMERICA WILL BE FOREVER FREE.

EDITORIAL

The Women Are Wonderful

The women have been wonderful in this Direct Credits movement. They have kept pace with the men in every way.

When a man realizes how unselfishly the women are devoting themselves to this great humanitarian cause and how willing they are to stand in defense of weak children and feeble old folks, he feels proud to think that his mother was a woman for whom he has great love and respect.

The women are quick to understand that Justice for Everybody will harm nobody and that there is no Justice unless it is for Everybody.

The women can readily see why it is necessary for Everybody to have a purchasing power equal to their productive power in order to establish Economic Justice for Everybody. They can understand that if four-fifths of their earnings must go to pay interest and taxes to financiers that the one-fifth left for themselves will not pay the rent, food and clothing bills.

No real woman wants to stand idly by and uphold an atrocious system that starves millions of innocent babies and steals the homes and beds from invalid widows.

So the women have at last found something they can take part in that is fair and square to everybody and they now work shoulder to shoulder with the men for Direct Credits for Everybody and God's great unselfish principles espoused in LAWSONOMY.

This humanitarian work will be more and more appreciated by the people as time uncovers its true value. The acorn is not appreciated until the oak is full grown, neither will this foundation work be fully appreciated until Direct Credits for Everybody is in full force.

No real woman with a heart will ever turn her back upon the Direct Credits Society once she realizes it stands in defense of weak children and feeble old folks and that it puts a higher value upon human beings than it puts upon money. No real woman will ever stab an innocent baby through the body by harming a Direct Credits missionary. No real woman will worship Gold instead of God if she realizes how it will degrade both herself and her offspring.

Unborn babes are nurtered from the blood of their mothers which carries along with it the MENORGS that do the thinking for the child after it is born.

So if a woman thinks of Gold as a God, then the child will be a Gold worshipper when it grows up.

The Direct Credits Society with its perfect Lawson Money Plan, that will Abolish Interest and Taxes and give everybody five-fifths of their earnings instead of one-fifth so that everybody will enjoy a purchasing power equal to their productive power, is just what the real woman craves as a stimulant for her mental and moral development that shows her splendid qualities to the best advantage.

It is a fact that the facial expression of a woman working unselfishly for Direct Credits for Everybody is improved by a divine radiance that is delightful to behold.

The muscles of the face are controlled by the thoughts passing through the mind and those who think it is all right to uphold a contemptible financial system that robs innocent babies of their milk and the invalid old folks of their beds in order to gain something for themselves, develop in time the facial expression of a demon that even the Devil himself despises.

So if you want to see a woman with a soul, look at her face, look into her eyes, don't look at her clothes. Fine clothes often cover up the most dilapidated and degraded bodies.

A woman may be able to fool her neighbor, or she may even be able to fool herself, but she can never fool her own face because that registers her thoughts that tell the world what she has been thinking about.

Forgetting oneself and working unselfishly for Direct Credits and Justice for Everybody will light up the face of anyone with an expression such as could not be had in any other way.

Women have taken an active part from every angle in the Direct Credits movement during the past and they must be given at least fifty per cent of the credit for its extraordinary success. They did everything well.

The women are wonderful, WONDERFUL.
