Justice for Everybody Harms Nobody

Three Cents

MASTER'S VOICE

BY ALFRED LAWSON

Speech Taken by Beatrice Freese, M.G.D.C.S., at Stambaugh Auditorium, Youngstown, Ohio

UNLESS YOU KNOW THESE THINGS YOU ARE NOT EDUCATED

Have you decided which financier you are going to vote for this year? You ought to give a lot of consideration to that question because I am going to tell you and furthermore I can prove that every political party in the United States is controlled by financiers.

So instead of looking up the politician, look up the financiers and find out from them what they intend to do with the people of the United States now they have them trapped.

Ask these alien financiers what they are going to do to the American people after the next election? That is the important question, not whether they are going to raise or lower the tariff on cigarettes or booze; not whether they are going to increase the tax on your chewing gum or try to balance a crooked budget.

What you should know is what are these financiers going to do with you after they have you tied hand and foot and your families are in a weakened and helpless condition. You had better find out about that before it is too late because the financier is the cruellest of all living creatures and you can expect no more mercy from him once he has got you completely locked in his power than a fly can expect from a deadly spider once it is locked up in its web.

There are a dozen political parties in this country nowadays and every one of them belongs to the international financier.

You had better investigate for yourself and find out whether I am telling the truth or not. You owe that much to your children whom you are selling into future slavery in exchange for a bone to gnaw upon to-day. You are locking the hand-cuffs upon their little wrists yourself. You are helping to enslave them and you don't know what you are doing.

You know, when your forefathers fought for this country they fought for freedom. They fought for a voice in the management of their own affairs. They wanted to say how things were going to be run. They wanted a voice for the people.

Have you a voice to-day? None at all. You haven't even a gurgle. The financiers have turned you into a puppet. They do all the talking.

They say you have different political parties and have the right to vote. Yes, you do, but they own the political parties, and you vote for their programs. You do as they say.

You make motions with your face as if you were talking but it is the voice of your master, the financier, that is heard. He is the ventriloquist that fools the people.

The International Financier sets a republican on this knee and a democrat on that knee and takes hold of their necks and when he

squeezes, you think they are talking. The mouth of the financier doesn't move at all; apparently he is saying nothing, but his vocal cords are moving, and the little fellows sitting on his knees do no talking at all; they just make faces at you.

What does the financier say? He says to the puppet on this knee, squeezing his neck at the same time, "Willie, what are you?"

Then Willie's face begins to wiggle and he looks as if he is talking but he doesn't say a word.

It is the financier who does the talking. But Willie is supposed to say, "I am a republican."

Then the financier asks, "Willie, why are you a republican?"

"Because," is the answer, "My father was a republican."

So the financier asks, as he pinches him again, "Why was your father a republican?"

"Because," answers Willie, "My grandfather was a republican."

Then the financier asks, "Willie, do you know the difference between a republican and a democrat?"

Willie says, "Frogs, no. What's the difference, what's the difference?"

So then the financier squeezes the neck of Jimmie who is squatted on his other knee, and his face begins to wiggle. You would swear that he was talking. The financier then asks, "Jimmie, what are you?" So Jimmie answers, "I am a democrat."

"Now, Jimmie, why are you a democrat?"

"Because my father was a democrat."

"Well, Jimmie, why was your father a democrat?"

"Because my grandfather was a democrat."

"Jimmie, do you know the difference between a republican and a democrat?"

"Frogs, no," says Jimmie, "What's the difference, what's the difference?"

So that is what the financier does with the democrat and the republican, and they think they are talking.

The people have lost their voice entirely. The alien financiers have been talking for Americans so long that they will never be able to talk again—that is, unless they learn how to talk in the Direct Credits way.

Do not think that I have anything against politicians. I have not. We need them in a free country. We need political parties in order to uphold the American form of government. I am for the politicians as a whole although I do not take sides with them. I have never held a political office and never will hold one, but I want political parties in this country. I would like to see in this country people who can talk, not people who just make believe

they are talking.

There are now twelve roads to the polls. Twelve different political parties in America; two major parties and ten midget parties; but they all lead to the financier; every one of them. Remember that. They all use the same voice—the voice of the alien financier.

Sometimes the people get tired of the same old political parties and then the financiers start a new one for them. In fact, they keep starting new political parties all of the time in order to take up the slack in the peoples idiosyncrasies. The people think they are getting something different but it is always the same old financier that does the talking in the same old way.

Now, people, you may as well know right now that the alien financier has the whole American nation tied up in a knot. He has tied you up with political parties and other organizations which I will tell you about. But first let me finish with the political parties. Always remember that I haven't anything against them.

I have been talking for ten years for the Direct Credits Society. During that time I have made over one thousand speeches and I have never yet mentioned any man's name nor any woman's name from the platform. I don't say anything bad about people. I don't hate anybody. If I hated human beings they would hate me. So I don't hate anybody and nobody hates me, that is of course, as far as I know.

But I want to tell you something about politicians, so you will understand them. I want to tell you of the infernal system that entices your politicians away from you who would like to be true to you. You won't let them be true to you and the system forces them to do what the financier orders them to do. The financier educates you to turn against the politicians who would be true to you.

Now, when you, the people, have sense enough to do what your Constitution tells you to do, then you, instead of the financiers are going to tell the politicians what you want them to do. You, the people, have the real power to do what you want to do, but you have given away that power to a bunch of alien swindlers who are now forcing you to mistreat one another.

That's what I'm trying to teach the people of America. I want to show the people what their rights are, that's all. I also want to show the people the correct method of getting what belongs to them. If the people do not get what rightfully belongs to them while they have the power to do it, then it is their own fault, not the politicians. The financiers are making goats out of the politicians. They use them and then double-cross them just as they double-

cross everybody even to their own hired touts.

I am the only man with any influence in America that dares tell the people what is actually wrong in this country. If any one else talked as I do the financiers would have him ostracized. But the financiers are afraid of Lawson. They say, "That fellow is like a porcupine. If you go too near him something happens to you." So, they keep their distance from me although some of them would like to see something happen to the Commander-in-Chief of the Direct Credits Society. But nothing happens to me. It happens to the financier who has the evil thoughts. It is the reaction of his devilish intentions that punishes him.

There are eighteen top-notch international financiers in the world. Six of them are in America.

In the United States to-day three international financiers control all political parties. The other three don't count much in political control except that they hand out a little money when called upon to pay for the election of some tout that will double-cross the people.

Let me tell you right now that I spent twenty-five years doing business with financiers—mastodon, second story and peewee—and I know them well. If you haven't spent a lot of time studying financiers then you don't know them at all. So I am going to give you the benefit of my experience with them. What I say is not in a hateful manner for I would not harm a hair on their petrified craniums. After all, the foolish people of the United States made them what they are.

The people of America gave so much wealth to the financiers that it made of them gold worshipping maniacs. You permitted them to take from you all of your property and everything you have earned and squander it with their half-witted relatives. You have gotten them to think that they have an inalienable right to force you to give them all of your earnings without them giving you anything in return whatsoever. You have acknowledged that you ought to be whipped and have furnished them with the whip for the purpose.

So, there are now three financial houses in America that control all political parties. One of these three houses control three separate parties—a major political party and two radical parties. One of the partners of that financial concern controls two radical parties himself. His son is one of the leaders of one of the radical parties and his daughter-in-law is one of the leaders of the other radical party. Can you beat that?

One sometimes hears members of these two radical parties bragging about their connections

with these big financiers. They seem to think that they have accomplished something wonderful in making such connections. They thought that way in Russia until the financiers got complete control of the country and began shooting to death the radicals.

Now the other major party in America is controlled by a different branch of the international financiers who also control some of the midget parties as well.

Then again the third big clique of financiers have been getting control of some of the little political parties and hope to pick a big enough hero for the people some time or other to win the majority of American votes for a third big party.

If it wasn't for the fact that these different international financiers are each anxious to boss the job; if they had all been willing to pull together and decide as a unit; the United States of America would long before now been under the iron heel of a financier's dictator and the American form of government which our forefathers fought, bled and died for would have long ere this been a thing of the past.

So Americans, what little freedom you still possess is yours because the alien financiers have not yet been able to agree as to which bunch of them shall hold the keys to your manacles and not because you have done anything to save yourselves.

The people of the United States are not aware of the fact that the financiers not only control all of their political parties but that they also control every other influential organization in the United States except the Direct Credits Society. The people do not know that the alien financiers control every avenue of publicity and learning so that the inhabitants of this glorious country cannot learn the truth but are educated by them from the day they are born until the day of their death in their false teachings.

The people don't realize that almost everything they read in newspapers, magazines and books is prepared for their degradation and that almost everything they hear over the radio is said for the benefit of the financiers. They don't realize that the financiers control their colleges and turn out flunkies by the thousands who are given to understand that their success in life is dependent upon their ability to go out and skin the people out of their properties and earnings and hand it over to them.

As the financiers control every avenue of publicity and learning there is of course no chance for the people to learn anything but what the financiers want them to know. And so it is the easiest thing in the world for the financiers to thrust upon the people their own double-crossing touts

and make the people think that they are their heroes.

By the use of the radio, the newspapers, the magazines, the screen and the various institutions of learning the financiers can build up in the minds of the people new heroes for them to rave over as fast as the old heroes are cast into the slop bucket.

There is absolutely no way for the people to learn the Truth. Surely the financiers who skin the people are not going to educate them to stop being skinned.

The financiers actually skin the people alive and by and through their control of all avenues of publicity, they actually make the people applaud them for doing it. Their publicity stuff is worse than laughing gas for the innocents. Every time you turn around one of their touts tells you what to do and you do it with a giggle.

The touts of the financiers make the people believe that they can get something for nothing by upholding the Interest Collecting Swindle. So the people get the notion that they can beat the swindlers at their own game. That is the cause of the people's downfall. They think they can get something for nothing.

When the people of the United States become intelligent enough to understand that they get nothing for nothing and stop this infernal swindling game and ABOLISH INTEREST they will then be able to hold and enjoy their full earnings and not before.

The financiers produce no wealth at all but they absorb the most of it. They do it through forcing the people to pay tribute on the money they use. This tribute is so large that it makes it impossible for anyone to retain their possessions for any length of time, no matter who they are because the scheme permits the big thief to eat the little thief. Yes, even the little cheat who robs the widows and orphans of their homes has to give up his ill gotten gains to a bigger cheat and then the bigger cheat is forced to give up his ill gotten gains to the biggest cheat. Sooner or later every millionaire in America will be eaten up by some billionaire who is capable of playing the game on a bigger scale. Thousands of millionaires have had stolen from them what they have stolen from others during the last ten years and then have had to commit suicide as their final payment according to the law of "Get what you give."

These big international swindlers have taken away from the American factory owners more than 200,000 factories during the last few years. The manufacturers thought they could play the game according to the Interest Collecting Swindle but found out when it was too late that they could not do it successfully. The big swindlers made the manufacturers believe that Capital and Finance were the same thing. Direct Credits for Everybody teaches them the difference.

More than 3,000,000 stores that used to be owned by American merchants are now run by the international financiers; they are crowding out merchant after merchant until it won't be long before there will be no American merchant left. Foolish merchants pay fees and dues in financier controlled organizations to be double-crossed and squeezed out of business.

During the last few years the financiers have stolen from the American farmer more than 3,000,000 farms and have cheated the American working people out of more than 6,000,000 homes. Still farmers and workers pay fees and dues into financier controlled organizations that teach them that it is all right for them to be cheated out of everything they earn by the Interest Collecting Swindle.

The international financiers have been able to take away from the American people more than \$300,000,000,000 (three hundred billion dollars) worth of their property during the past few

years for which they gave absolutely nothing in return. On top of that they have forced the American people into an interest bearing indebtedness for future payment of another \$300,000,000,000. The people have been educated by the financiers' controlled publicity instruments that this racket is all right.

This interest-bearing indebtedness consists of federal, state, county, municipal and all private indebtedness upon which interest has to be paid such as bonds, mortgages and various kinds of loans.

The total amount of interest that the people must pay to the financiers annually on all of this interest-bearing indebtedness amounts to more than \$20,000,000,000 (twenty billion dollars). That is more interest to be paid than there is money in the United States of America.

In fact, not counting the gold, which is not money anyway but is a hook to catch the people with, there is less than \$9,000,000,000 (nine billion dollars) in usable money in the United States of America and the largest part of that lies dead in the vaults of the financiers. It is quite probable that there is not more than \$4,000,000,000 (four billion dollars) in actual circulation—that is, money in the hands of the people themselves—today. So for every one dollar in actual money used by the people they must pay four dollars in interest annually.

Therefore the American people must pay four-fifths of their earnings to the financiers as tribute because they have allowed themselves to go into a stupor while the slippery financiers were trapping them and getting control of all avenues of publicity and learning and using them to dope the people into a state of complete helplessness.

Now that is not the worst of it. Their intentions are to make of the American people a slave race and just as soon as they can decide among themselves who will boss the job they will put in an alien dictator, establish a financial aristocracy, close all of the public schools and force the people into a state of illiteracy so that they can use them purely as beasts of burden.

It is the financiers' intention to double-cross the politicians just as they have double-crossed the laboring men, the merchants, the farmers and the manufacturers and throw them out of office and run the government by the sword, gun and bayonet.

They intend to do away with the civil police and put soldiers in their places. In fact they intend to do away with all civil government entirely and run America as they are now running Italy, Germany and Russia where the people have lost all semblance of freedom of speech, freedom of press, freedom of radio, freedom of religion, freedom of assembly and are now mere serfs in the hands of financial swindlers. If you don't believe that go over and work for a living in any one of the countries where a so-called dictator, who gets his orders from the financiers, is in control.

The American people have now gotten near the end of their rope. All of their organizations are used as traps through which they are forced into blind alleys from which there is no escape and in which they are made to whip each other at the instigation of the financiers' touts who act as decoy leaders.

However, there is still one little flicker of hope left for the American people. They can still join an organization that stands for a government of the people. There is such an organization in America; an organization that is entirely free from the touts of the financiers. That organization is known as the Direct Credits Society.

The Direct Credits Society offers a perfect economic plan whereby the people can obtain a purchasing power equal to their productive power that will afford justice for everybody and harm nobody. It is the people's plan—not the financier's plan. The two

plans are opposite. You must either stand with the people and Abolish Interest or you must stand with the financiers and rob the people of their earnings by the Interest Collecting Swindle. There is no alternative; no compromise.

The Direct Credits Plan will give to the people a voice in the management of their own affairs as was originally intended by the founders of the American Constitution.

The people have never had a plan of their own during the history of the world that would give them a purchasing power equal to their productive power and afford justice for everybody that will harm nobody.

God sends this great Economic Plan to the people now, at a time when they have almost slipped away from Him altogether. They have accepted the financiers' swindling plan and have become gold worshippers. That is the main cause of their troubles. They have become gold worshipping puppets without a voice in the management of their own affairs.

By the Direct Credits Plan all people will be given an opportunity to worship God and love one another; not worship gold and skin one another.

The Direct Credits Plan is too big and great to understand all at once; after but a few minutes talk. It will be necessary for the people to take plenty of time to investigate it thoroughly for themselves. This can be done by studying the Direct Credits Literature. A newspaper and pamphlets ranging in price from three cents a copy to ten cents a copy is published for that purpose. Read them. They were written for you. They show how you have been caught in the financiers' golden web.

The greatest happiness ever known to human mortals is now being experienced by hundreds of thousands of Direct Credits Officers scattered all over the world who are offering their services and their lives for the good of Humanity without any reward whatsoever for their work.

When there are enough honest-to-God people in the United States of America to join this Society and help stop the International Swindlers from Stealing America then the people of America will be able to throw these swindlers off of their backs and break the shackles that are now binding them and their children to alien slavery.

Understand, the Direct Credits Society is not against any man, woman or child. We merely offer a plan that will give Justice to Everybody; that means for the working man, the manufacturer, the merchant, the farmer, the professional man, the politician, the policeman and everybody else. We do not pick out any one class of people and say God loves them and no others. We say God loves every man and woman and child who will do what is right. We also say that God does not love any man, woman or child who does what is wrong. When you cheat others out of their property and earnings by the Interest Collecting Swindle you do wrong.

All Direct Credits Officers teach is God's Natural Laws. It is as senseless for human beings to try and stop them as it is for ants along the sea coast to try and stop the tide from coming in.

You can't trick God. You can't expect God to give you something if you don't deserve it. That is against His natural laws.

So if you uphold this system that starves little children; steals the homes of widows and old folks; God will punish you; but if you will turn about and say, "I have seen the light; I will stand with God; I will work for little children and feeble old folks to the best of my ability; I will stand with the Direct Credits Society and help to Abolish Interest," then God will stand with you and help you, but not otherwise.

Act square with God and He will act square with you.

CHRISTMAS GREETINGS

By ALFRED LAWSON

December 25th, 1936.

Nearly two thousand years ago God sent a man to earth with a message for everybody to accept and be benefited by. It was—**LOVE ONE ANOTHER.**

But instead of exchanging love with one another the people practiced hate for each other. Instead of worshipping a God with Life they groveled beneath a dead lump of metal.

So, for Gold, or its purchasing power, people have lied to each other, cheated each other, stolen from each other, murdered each other, beggared each other, enslaved each other, tortured each other, mutilated each other and degraded each other.

People have not loved one another as this man told them to do, but they have detested each other and the reason for that is because they have put Gold above God.

Now, nearly two thousand years afterward, another man comes to earth and tells the people not to hate each other. He tells them that they cannot love and hate at the same time. He says that they cannot worship God and Gold together and unless they give up Gold it will be impossible to follow the precepts of the man who asked them nearly two thousand years ago to **LOVE ONE ANOTHER.**

But there are certain creatures on earth who either directly or indirectly teach the people to worship Gold. They themselves pretend to worship God, but they sell their souls for Gold. Their purposes are both selfish and fiendish. They make laws for the strong to victimize the weak, which in the eyes of God is the meanest of all sins.

The people are taught that Gold is the base of value and through its medium they are fleeced of the products of their labor. They are also taught that they, too, can practice the same trickery for gain through Gold. But the reaction of God's laws causes punishment and misery for all those who crave Gold no matter what the pretense may be. So God says this infernal practice must be stopped.

Now God sends another message to the human race, which is **JUSTICE FOR EVERYBODY HARMS NOBODY.**

That message will make it possible for the teachings of the man, whom God sent two thousand years ago, to be followed by everybody instead of being followed by nobody as happens at the present time.

Not only has God sent one man to deliver this message to the people, but he has sent one hundred and fifty thousand men and women of all races and religions into the highways and byways to teach **JUSTICE FOR EVERYBODY HARMS NOBODY.**

These men and women are officers of the Direct Credits Society and they love one another because they actually worship a living God and do not hate each other because they do not worship a lump of dead Gold.

These officers do not let the creatures who victimize everybody through the medium of Gold make them hate, fight and degrade each other.

So, in behalf of these real missionaries of God, it is to be hoped that not only will the people rejoice on Christmas Day that a movement has at last been started that will cause one to love another, but that the people will begin a new year by obliterating the horrible cause of their hatred for each other.

Direct Credits teaches everybody to be kind to one another three hundred and sixty-five days a year, not just one day a year.

Thus may this Christmas bring permanent love to the soul and may this New Year bring real intelligence to the mind so that all men may stop fighting and mistreating each other over a lifeless piece of deceptive Gold.
