POLICE

THE CRIME OF AGES IS NOW UNDERWAY

Address Delivered to Michigan Police Officers at the Direct Credits Auditorium, Detroit.

BY ALFRED LAWSON

UNLESS YOU KNOW THESE THINGS YOU ARE NOT EDUCATED

The most notorious crime ever perpetrated in the United States of America is now being committed and Police Officers everywhere must be made acquainted with the facts as quickly as possible.

This villainous and traitorous misdeed against the people is a combination of crimes that includes fraud, robbery, bribery, blackmail, murder and almost every criminal act that can be practiced upon an unsuspecting public.

This proceeding is such an enormous collaboration that it stuns the ordinary imagination and its full significance is hard to grasp at the first hearing.

It is so intricate and cunningly devised that only one who has had a life of practical experience in every avenue of human endeavor could have pieced it together, balanced it and made a complete set-up for your survey, understanding and investigation.

This super-monstrosity is being committed by the most devilish gang of International Cut-throats that ever infested the Earth, and it is going to require the fullest force of this nation's police to round them up and bring them to the bar of justice to receive such penalties as the actual proof shows they deserve.

The police cannot do this work alone — they must be backed up by the people everywhere.

It will surprise you when I state that the following series of robberies and murders which I am about to relate are only the prelude of the stealing of an entire nation and enslaving all of its inhabitants.

Yes, this bunch of international swindlers are about to steal the United States of America and make of its people, including the police, a slave race.

The object of this diabolical undertaking is to put in the United States of America an alien Dictator, with sword in belt, to rule the American people; to do away with the American form of government, its Constitution, the right of assembly, free speech, free press and free religion. To put in the place of our manly policemen, half-grown boys with bayonets as a menace to the citizens of this country and to act as a final notice to the American people that the liberty their forefathers fought, bled and died for has come to an end.

Without giving the matter much consideration you might quickly say IMPOSSIBLE, the American people will never stand for that.

But when I prove to you that the American people have already stood for three-fifths of the

diabolical plans of these swindlers to enslave them, and when I show you how easy it will be to put over the other two-fifths of their plans you will, I am sure, take a very serious view of the matter and realize that it is your duty to warn American citizens of their danger as well as to protect them.

LISTEN.

What have these aliens already done to the people of this country?

First, these swindlers, who call themselves Financiers, got control of the money supply of this country. Then they proceeded to restrict the quantity of it and compel everybody to pay tribute for the use of it. Finally they made everybody pay tribute upon credit in place of money until it ran up to about 200 per cent annual interest charges on the actual amount of money in circulation.

Second, through their touts, who are everywhere, they enticed the people to mortgage their properties and buy stocks and bonds at about ten times their actual value, after which they withdrew a large part of the money from circulation and foreclosed upon the properties that the people had mortgaged and had no money to pay interest and taxes with, but which was worth from five to ten times the amount of the loans. By this clever scheme they were enabled to take away from the American people properties that, in 1929, were valued at about \$300,000,000,000. Yes, Three Hundred Billion Dollars.

What did these properties consist of?

Well, there were more than 200,000 factories stolen from American manufacturers; more than 3,000,000 stores were taken from American merchants or closed up entirely to make room for the financiers' chain stores. There were more than 3,000,000 farms stolen from American farmers; more than 6,000,000 homes stolen from American workingmen, including many policemen's home; there were railroads, trolley lines, bus lines, airlines, boatlines, hotels, apartment houses, office buildings, mines, inventions, theaters, churches and all sorts of other valuable things too numerous to mention.

How do we know that these financial swindlers stole these properties?

Because they now have them in their possession.

If you catch a thief with the goods that is proof enough, isn't it?

Didn't these alien swindlers, you ask, give the American people anything for these valuable properties?

Not a thing. Absolutely nothing. They just cheated the American people out of their possessions by their swindling financial operations. They stacked the cards on the people. They used loaded dice and every fraudulent scheme that the ingenuity of sure-thing cheats could devise.

Then, after they had actually swindled the American people out of their tangible possessions, they actually tied them up with I.O.U.s for another \$300,000,000,000 (Three Hundred Billion Dollars) in the shape of interest bearing indebtedness.

You know the old gambler's trick of fleecing the victim out of his money and then permitting him to continue to play the game until he signs up I.O.U.s for more than he can pay? Well, that is the same sure-thing game the financiers play. Heads I win and tails you lose.

The people haven't the shadow of a chance in the Interest Collecting Swindle. Fools are allowed to cheat other fools out of six per cent interest on small money loans and then the financiers take it all away from them, plus 194 per cent, through fraudulent credit manipulations.

You police know how the gamblers fleece their victims. They let the dupes win the little pots and they win the big pots. That makes the dupes think they are just as good or better players than the gamblers—except, as the dupes put it, "Their luck is not so good."

The Financiers treat the people the same way. They let them think they are winning something when they cheat somebody else out of six per cent interest. Then the financiers cheat them all out of 200 per cent of their purchasing power by the Big Credit Swindle.

Unless the people get wise and Abolish the Interest Swindle, which forces everybody to pay a tribute for the use of money or credit, then nothing else counts in this crazy life.

You police know how Gamblers and Swindlers round up the dupes, don't you?

They send their Touts to entice them into the game.

A TOUT is one who leads a dupe into the trap of a swindler.

The meanest of all Touts is the fellow who pretends that he is your friend, the traitor who leads you into the swindle and then gets a part of what you were defrauded out of.

Institutions of learning in America come under the corrupt influence of financiers—especially the COLLEGES, whose upkeep is maintained by contributions of those mastodon swindlers.

What's wrong with American Colleges?

To begin with, the professors must teach false UNECONOMICS for ECONOMICS in order that the swindlers may continue to skin the people through the Trick Game of Finance.

Next, if they teach false Economics instead of natural Economics which is based upon the utilization of everything without the loss of anything, then they have to teach false Physics, which relates to the movement and balancing of matter.

So the professors teach credulous students a mongrel physics without legs to stand on—an intangible something they cannot explain because they must first know ECONOMICS as the utilization of everything without the loss of anything.

So, if your college instructors do not know the cause of movement and teach nothing but theoretical nonsense for Physics, how can they explain physiology?

They cannot. No, they cannot even explain the cause of sex, the cause of blood movement nor the cause of growth, which are very simple things to explain when you understand LAWSONOMY.

Again, if college professors do not understand ECONOMICS nor PHYSICS how can they understand mechanics?

They cannot, and so they just toy around with kindergarten inventions of stray mechanical contraptions and call it mechanics. And to make things worse the financial swindlers who control the money and credit of the nation actually hold back advanced inventions because they would make obsolete the rickety appliances they use to force tribute from the people.

History, as taught by the financiers' instructors and writers, is an insult to one's reasoning faculties. My investigation of histories leads me to believe that at least seventy-five per cent of the contents of all of them are downright lies or misrepresentations of facts.

Man made Laws are camouflaged so that big swindlers can legally rob the people out of four-fifths of what they earn and therefore Injustice is offered the dupes as Justice.

Contrast laws made by human swindlers to God's immutable and incorruptible Laws and you will realize how degraded is the College Stuff branded as Law that is smothering the people of this nation today.

Now, what can be expected of a nation whose main channels of learning are corrupted from top to bottom by swindlers who educate everybody to be cheats, liars,

thieves, beggars, murders, dope fiends and suicides?

Under such horrible conditions it is easy for Alien financiers to put their touts in key positions of all organizations and then set each fighting the other until they have all whipped themselves into a state of helplessness so that one degraded wretch sitting upon a swindler's throne in Europe can decide the fate of every human being living upon American soil.

Of course the deep dark plot of the Alien Financiers is to steal this whole country away from the American people—army, navy and all.

The plot has been marked off into five parts. Three of those five parts have already been carried into effect and the fourth part is now on its way and will be executed at the psychological moment when the people have been doped by the Touts into a feeble state of lethargy and non-resistance.

Those five parts were and are as follows:

Part One—Take away the American people's property including banks, factories, farms, newspaper plants, radio, railroads, boat lines, airlines, bus lines, electric lines, mines, mills, quarries, telephones, telegraphs, stores, office buildings, apartment buildings, hotels, homes and everything else that is tangible for payment of back INTEREST and then sign up the people to an indebtedness that they, their children or their children's children can never pay the INTEREST upon. (ACCOMPLISHED).

Part Two—Reduce the Laboring Class to an average purchasing power of less than one dollar per day; keep from 12,000,000 to 15,000,000 working people out of employment all of the time so they will fight like wild beasts for a job or food to eat; break their spirit so they can be easily driven into stockades. (ACCOMPLISHED).

Part Three—Revalue the Gold so that a Dollar Bill would be devalued to one-half of its purchasing power, thus forcing the people to pay twice as much for everything they buy without having doubled their wages. (ACCOMPLISHED).

So there you are, three-fifths of the plot put over and the American people still in a trance. Hypnotized by their Touts.

There are still two parts to be put over, but the fourth part will be all that is necessary to tie the people up for good.

Part Four is to overthrow the American Form of Government and establish in its place a Military Dictator—at first a so-called

American Dictator and later, when the American people have been whipped into complete submission then an out and out Alien Dictator.

You gasp. You can't bring yourself to believe it can be done.

Well police officers, it is being done now. It is underway. It is being accomplished so cleverly and intricately that the people do not realize what is happening. The people are actually being educated to enslave themselves and they haven't caught on to the trick. How could they know what is going on when every Avenue of Publicity is used to trick them—when their organizations are controlled by the financier's Touts who are selling the people out for a few bones to gnaw upon.

Now open your ears and gulp in every sound I utter. I am talking for you — your wives — your children and your parents.

If you love your children, your wives, your parents and your country, now is the time to listen as you never listened before. What I tell you is the Truth. What the financiers or their Touts tell you are lies.

For some time past you have been reading in the newspapers and in magazines and you have been hearing over the radio and in public debates that Politicians and public office holders, by their extraordinary extravagance, have brought about great suffering among the people and were the cause of this depression. All blame is being thrust upon office holders for the constantly increasing taxes that the people are forced to pay. They are being blamed for the high cost of living and all of the burdens the people are suffering under.

Do you know why that is done?

Well I will tell you. That is done to make the people believe that the political office holders do not know how to manage the people's affairs and that they are the cause of all of their troubles.

Such flames are being fanned by financial agitators until the people are worked into a fury over the matter and then they will shout from the megaphones, let's throw the scoundrels out. During the hysteria that will follow the office holders will be done away with.

Then what? The Dictator will step in and your American Form of Government will have come to an end.

Once the financier's Military Dictator is in the saddle you will never get him out again. If the American people haven't the backbone to keep the Dictator out they will never have the backbone to put him out after he is once in.

The American Form of Government is what the early citizens of this country fought for. It is the greatest form of Government ever devised to give all of the people a vote in the management of their own affairs.

Under the American Form of Government the United States of America was developed into the richest nation on earth. It developed more freedom of thought, more production of wealth, more mechanical inventions, more ambitious men and women, more organizing geniuses and more expert workmen than any other country. It became a nation of wealth producers.

But with success the people became soft and gullible and lacking in vigilance to protect what they produced. They let worthless worms beneath their feet grow into huge poisonous reptiles that entwined and strangled them.

The people of America have been undermined by the Touts of the Alien Financiers to such an extent that they are now on the verge of losing the American Form of Government that brought success to them and having forced upon them a Dictatorship that will make of them slaves.

Smooth tongued Touts are telling the people everywhere how much better would be a Dictator than our present form of Government and the people are begin-

ning to believe it.

Hardly a day passes, but what some newspaper or magazine runs an article blaming the politicians for the high taxes that the people must pay and thereby creating the impression that the legislators are responsible for the depressions, thus breeding hatred against the law makers so it will be easy to throw them out and establish a Dictator.

Those articles do not tell the people that a large percentage of the taxes has to go to pay back interest on the Three Hundred Billion Dollars of Federal, State, County, Municipal and Public and Private indebtedness that the foolish American People allowed the Alien Swindlers to run up on them. Nor do they tell them that under a Financial Dictator higher and higher taxes will have to be paid to meet the increased interest upon the ever growing indebtedness.

These smooth tongued Touts do not tell the people that under the American Form of Government they at least will have a voice in abolishing the Interest Swindle that has caused all of their hard times, but that under a Dictator they will have no voice at all and that the Alien Financiers can then do as they like with a servile slave race.

Another subtle thing that the people have not caught on to yet and that is the mud that is being thrown at our civil police through newspaper and magazine articles all over the country. The people are being taught to belittle our gallant Policemen for no other reason than that the Alien Financial Swindlers intend to abolish all forms of civil protection for the people such as Municipal, County and State Police and Detectives and County Sheriffs and put into their places young boys with bayonets.

Yes, young boys can be trained to use bayonets, gas, and bullets against the people for thirty dollars per month, while mature policemen with families to support are paid several times that amount, and, policemen who have children of their own are too kindhearted anyway, to shoot American citizens.

The people don't realize that under a Dictator the boys from Tennessee will be taught to hate and shoot the people of Michigan and the boys of Michigan will be taught to hate and shoot the people of Tennessee. The Michigan boys will shoot the parents of the Tennessee boys and the Tennessee boys will shoot the parents of the Michigan boys.

Such is the game of the Alien Financiers—make the American people whip themselves—shoot each other in cold blood.

America is the rich, juicy nation that the Alien Financiers are after to add to their collection of other countries they now control through Dictators.

Your forefathers fought for freedom because they did not want to pay tribute on tea and other necessities of life. But today you pay a thousand times more tribute in the shape of interest on money and credit to Alien Financiers than your forefathers paid on tea and you and your children and old parents are abused a great deal more.

You don't realize what a monstrous tribute you are paying to those money-mad Financiers. Devils so terrible that they would allow your babies to die for the want of milk in order that they can drain you of everything you earn. Demons who put feeble old folks into stockades and allow them to rot to death.

Those demons are Gold worshippers. They have taught the people of the world to worship Gold instead of God. They would commit any crime in the name of Gold.

You have put into the clutches of those Gold worshippers not only your own lives, but also the lives of your children and grandchildren. There was no way for you to know what you were doing. Your Touts run you up blind

alleys from which there was no escape. You would never have known what it was all about or how you had been tied up if it had not been for the fact that God decided to stop it.

God has decreed that you must not teach your children to become Gold worshippers. You must not teach them to become cheats. He has decided that all children of the future must be given a fair chance to grow up honest and decent. Their brains must not be filled with lies that ruin their reasoning faculties.

God is going to get mankind out of the mire into which it has sunk through the knowledge of ECONOMICS.

God lets the human race develop intelligence through their own efforts. When they go too far out of plumb He steers them back into the right course after they have gained practical experience.

Thousands of years ago the human race ran wild with individual importance and God sent agents to teach them that there was a greater living being than man. So the various religions were established for man's spiritual development.

God next allowed man to develop politically. He let people know that they could have the right of assembly and could have a voice in the management of their own affairs.

Now God has introduced ECONOMICS to show the people how they can learn to manage their own affairs.

Although the people have not always done right either religiously or politically they have had experiences which will help them to understand ECONOMICS, which once put into practice will react upon their Spiritual and Political interpretations to great advantage and lead them to a higher plane of intelligence than ever before thought of.

Lack of knowledge of ECONOMICS has caused all of the people's troubles. So God has sent a perfect economic system. It is Direct Credits for Everybody. There is not a flaw in it.

The uneconomic methods adopted previously of trying to mix Religion and Politics with Economics will pass away and ECONOMICS, for the first time in history, will take its place as one of three cardinal departments—RELIGION — POLITICS — ECONOMICS.

You can understand God's Spiritual Laws and His Political Laws better when you understand His Economic Laws. But the three must be separate and distinct from one another in their operation.

The Direct Credits Society is in no way connected with or interested in any other organization. It has a regular economic program to follow which is published in its regular literature and it stands for nothing else. There is a code of by-laws called General Orders which all officers must follow to be in good standing with this organization.

Any human being can become an applicant for Passive Membership in the Direct Credits Society in order to register his or her economic desires without having to live up to General Orders, but anyone who wants to become an officer in this organization must abide by General Orders and live a clean, honorable life.

Officers of this Society secure a wonderful, practical education free of charge. We teach nothing but the Truth. We prove everything we teach. There is no guess work in Direct Credits Economics. We start at the foundation so you can understand the whole subject.

In order to thoroughly understand ECONOMICS one must know something about PHYSICS.

When I was a child I wondered what caused everything to move and I never stopped wondering about it until I had solved the mystery. It required a life time of concentrated thought before I could comprehend how all matter throughout space could be

changed in formations and moved about eternally and be utilized over and over again forever without loss of a particle.

So, I gave to the world a formula which I called PENETRABILITY from which all movement of matter can be traced and from which I discovered the EQUAEVERPOISE which balances all matter in space, which is fully explained in my book, LAWSONOMY.

It was while mastering these great Natural Laws that I learned that ECONOMICS was a side partner of PHYSICS and God's first Material Law which causes the utilization of Everything without the loss of anything.

So from now on you will have to laugh off that idiotic stuff they teach for Economics, such as, if there is too much food the common people should have nothing to eat.

The human race cannot take another step forward until it understands and practices God's Economic Laws as outlined in the formula Direct Credits for Everybody.

Now Policemen, that little bunch of Alien Financiers have the American people, including the Police, tied up in a financial knot from which there is but one loop hole to escape. So it is your duty as well as the duty of all loyal and true Americans to stop this band of arch criminals from any further depredations.

All that the Alien Financiers have back of them are a few traitorous Touts who hold the key positions of American organizations, while the Direct Credits Society has back of it the bulk of the people as well as God, who has, through great religious teachers of the past, denounced the payment of INTEREST to the money swindlers.

The Police must stand by the American Form of Government, for once the Military Dictator is established in power he will train half-grown boys to take their places and will turn them against the police with bayonets. So you must single out the Touts and stop them before they lead the people into a deeper ambush. You must not let them fool you any longer.

It is easy to discover a Tout of the financier; just ask him to announce publicly that INTEREST must be abolished. If he refuses you will know that he belongs to the financier, who robs the people and not to the people who are being robbed. If he says he wants to reduce interest or abolish usury you will know that he is a Tout and a slippery one at that.

Direct Credits says that you must abolish interest or nothing else counts. So you must watch these tricky Touts who use ambiguous language to fool you.

The Direct Credits Society believes in Law and Order and is ready to stand back of the Police of America in their noble work of protecting the people.

The Direct Credits Society is growing like a giant oak. Its roots are being developed to hold up the tree, no matter what sort of an ill wind may blow against it.

This organization is going about its work quietly. We do not conduct a ballyhoo campaign.

The motto of the Direct Credits Society is to serve humanity, take nothing from anybody; give everything to everybody; harm nobody.

Personally, I never harmed a man, woman or child during my life, and no man, woman or child ever harmed me. We get out of life just what we put into it, all things being taken into consideration.

Doing my duty to God and humanity affords me great happiness. I sleep well nights because I have nothing to worry about. I own no property and am a moneyless man, so I am not afraid of the slickers cheating me out of anything. Whatever I create belongs to all of the people. I try to give to the world more than I receive from it. The world owes me nothing. I owe the world

everything I can do for it.

My present job is to teach the people how to manage their own affairs. To do this it becomes my duty to show how the slickers cheat them out of their earnings and then ride them like donkeys afterward. I have to show how the unspeakable Touts who pretend to be their friends double-cross them and lead them into the traps of the swindlers who rob and make slaves of them.

I want to state here, however, that I bear no malice toward anyone, not even disease-minded money maniacs — the financier and his filthy tout — because everybody has been running mad more or less, owing to the horrible financial system under which we try to exist that is caused by the INTEREST COLLECTION SWINDLE.

My first instruction to the working people, as their coach, is to tell them to stop fighting among themselves. Don't listen to those slippery touts any more when they sic you onto each other or onto your employer. They have been doing that since you were born and what have you gained by listening to them? Nothing. You have lost everything.

The workingman must be made to understand that the slicker is a different kind of an animal than he is. The slicker is a sort of greasy pig. He is hard to catch hold of.

Of course I do not have to tell the Police about the slippery slicker. You officers know them all right.

The main things I wanted to call to the attention of you Police Officers are: (1) The Alien Financiers are preparing to steal America. (2) They intend to eliminate the American form of government. (3) They intend to put in a Military Dictator. (4) They intend to do away with all politicians and put in their places military men with swords in their belts. (5) They intend to put half-grown boys with bayonets on the streets to take the places of policemen. (6) They intend to establish a Financial Aristocracy in America. (7) They intend to close all public schools. (8) They intend to use the Colleges to educate flunkies to wait on them. (9) They intend to foreclose on all properties held by private citizens. (10) They intend to bond all wealth and make everybody pay everlasting tribute to them for the use of it.

So now, Police Officials, in closing this discourse, I have told you some things that, with all of your own sources of information, you have never heard before. The reason you have never heard of them is because the Alien Financiers, who control all avenues of publicity, will, quite naturally, not allow this information to be printed in their controlled newspapers, magazines or books, will allow none of their controlled College Professors to talk it, and will allow no one to mention it over their controlled Radio.

Ninety per cent of the American people who study the Lawson Money System join the Direct Credits Society.

As Commander-in-Chief of this great public organization, which includes laborers, inventors, manufacturers, farmers and merchants, I pledge it to stand back of the American form of government with all of its civil departments, and by the overpowering might of the people, stop the Alien Financiers and their Touts from displacing the Civil Police with immature boys carrying weapons.

I have the greatest respect for an honest cop or any honest official of our great American Police Department. Your duties are certainly difficult to perform.

Police, you have many little slickers and all 'round fakers to watch and pinch and you know the variegated tricks they try to pull off on you. Now just think of the worst little cheat and faker that you have ever run across—then multiply him by one thousand and you will have the Alien Financier all in one.
