# PRINCIPLES

## NOT MONEY, MUST RULE THE WORLD

(Copyright 1941)

BY ALFRED LAWSON

## UNLESS YOU KNOW THESE THINGS YOU ARE NOT EDUCATED

Financiers, who control the purchasing power of all nations, put money above principles; they put GOLD above GOD.

The Direct Credits Society was organized in 1931 to put principles above money; to put GOD above GOLD.

Principles, not money, must rule the world if mankind is to survive.

Principles are GOD'S RULES. Money is man's scheme for cheating and enslaving everybody.

As RIGHT always triumphs over WRONG, therefore, PRINCIPLES will ultimately supplant the surreptitious supremacy of money.

Because Financiers control the money system and are using its purchasing power to swindle the people out of the largest percentage of their earnings by charging interest for the use of money and credit, the world is now headed point blank toward a state of bankruptcy, stagnation and anarchy in which every fist will strike at the head of anybody who possesses anything of value.

The big international financiers are now locked in a death struggle to gain control of the wealth of the world and through the control of money and credit and by the interest collecting swindle enslave the human race forever.

Through the control of money the international financiers have already brought the peoples of Europe and Asia to their knees in abject submission and slavery. Financial Dictatorship now reigns supreme on those two degraded continents.

The people of the U.S.A. are more or less free by reason of the fact that they have a voice in the management of their own affairs through the operation of the American Form of Government.

The American people enjoy the right of assembly, a free press, free speech, freedom of religion, freedom of race friendship, freedom of unionism and freedom to enter the polls and vote for their own lawmakers and administrators.

The peoples of other countries who are ruled by Dictators do not enjoy such freedom but are herded together and driven like cattle to the slaughter.

So in this war of nations the democratic people are fighting for the rights of men, women and children to be free, while the totalitarian people are fighting for financial dictators and their accursed methods of looting and enslaving the inhabitants of the world at large.

The United States of America is the richest country on Earth and therefore its great wealth is coveted by the greedy international financiers. The biggest thieves always go after the richest booty.

European and Asiatic Dictators have a lip curling contempt for democratic people and they intend to make short work of DEMOCRACY if they can get control of the Western Hemisphere, at which they are now aiming.

AMERICA NEXT is now marked in big bold letters at the top of their program.

These international dictators have not only marked AMERICA as their next victim but they have already sent their sneaking advance agents to this country to undermine its efficiency and power of resistance so that when they actually attack it with their murderous dive bombers and monstrous tanks these over-fed and self-complacent people will have nothing with which to adequately defend themselves.

The Atlantic and Pacific Oceans are no barriers to present day flying bombers, not to mention the newer types of destructive machines that are constantly being devised and developed and put into operation.

These treacherous advance agents—wolves in sheep's clothing—are teaching innocent Americans to become peace loving lambs and they are told not to fight the conquering hordes from Europe and Asia who will attack them from both sides of their country at the same time.

They are the touts of the murderous dictators who have already strangled other peace loving countries who followed their treacherous advice.

With the right hand of PEACE extended toward their victims these bloodthirsty spies and traitors use the left hand, with a dagger behind, to stab the poor dupes in the back when they are not looking.

Yes, some unthinking Americans actually feed and house and coddle these vipers who will later abuse their feeble parents and enslave their own children.

Now, the things that the financiers and their touts are fighting for, are the physical things that can be dissolved and made useless.

So, as the financiers control all avenues of publicity it is easy for them to teach the short-sighted people to lie, cheat, rob and kill one another for material things that have no permanent qualities whatsoever.

Even the body of man is made of materials that can be dis-

solved in a moment by a few degrees of concentrated heat. It is here today and gone tomorrow. What is man?

A genuine analysis of the composition of man proves him to be a stack of bones hitched together by various cords and fibers within a sack of skin.

Briefly speaking, physical man is a mere bag of bones that are enabled to move through action and re-action of springs and hinges powered by suction and pressure.

However, man could not move a spring or hinge if it was not made possible by his mental system which extends to all parts of his body and is operated by billions of minute constructive creatures that I have called MENORGS.

These menorgs do the thinking for man, and, through their instruments they are able to bring to his mind occurrences of various kinds that develop his consciousness.

All parts of man's physical body, including his mental instruments, can be dissolved within a few seconds by concentrated heat, because they are made of materials.

BUT, there is something else connected with the life and activity of man that cannot be dissolved by heat or any other force—it is the SOUL.

To quote a few paragraphs from my book, THE ALMIGHTY:

"The soul is a unit of spirituality acting as the spark of life to a living creature. It is the inspiration of mental activity working with the mind in an advisory capacity.

"The principle of spirituality is a graduation in which the soul lives eternally through a never ending series of physical bodies.

"The duty of the soul is to improve the moral conduct of the mind and create within it the inclination for increased consciousness and the development of co-operation among creatures that will lead to magnitudinous undertakings.

"The success of the soul in each living creature is valued according to the moral acts of the subject.

"There was no beginning to the spiritual units of life, although they have been continually changed from one creature to another. Nor can there be an end to these spiritual units of life because there is no way that life can expire.

"The Creator uses spiritual units in the operation of living creatures.

"A soul that has proved trustworthy in the passing creature is attached to the body of a more progressive being during the next life.

"A soul that proves unworthy in the passing creature is attached to the body of a retrogressive creature during the next life.

"As Natural Law proves that physical formations are continuously built up and torn down by positive and negative creatures, it is shown that the soul proving to be the most successful in constructive work in one creature goes to a higher grade of existence in the next creature, and, the soul connected with a creature of a destructive nature goes to a lower grade of existence in the next creature.

"Therefore it is within the power of the soul to either pass into a higher state of intelligence or go into a lower state of intelligence during each succeeding life."

So it behooves each individual to strive for a higher state of intelligence in the next life by constructive effort in this life.

The Creator rules the universe through a set of unchangeable laws that always were, are now and always will be the same. Through the operation of these constant laws HE is enabled to utilize everything without the loss of anything, eternally.

In my book PENETRABILITY it is shown how the utilization of everything without the loss of anything is accomplished.

It is not hard to understand those things if one will give a little effort toward the study of this most intelligent subject.

No one should attempt to acquire wealth or make money out of war, because the punishment for such degraded actions will be in accordance with the degree that one has so practiced.

It is right to fight for PRINCIPLES but it is wrong to fight for money.

Fight for freedom, yes, but not for loot.

It makes one strong to fight for right, but it makes one weak to fight for wrong.

Do not be afraid to go to war and fight for the rights of weak children. For such unselfish action, death will be an advancement, not a punishment.

But, at its worst there is less damage done to the human race through warfare than there is through such degraded vices as cigarette smoking and liquor guzzling.

Cigarette smoking mothers either poison their offspring before they are born or bring them

to life in such an unfit condition that they are never able to attain the normal standard of human efficiency. Such weaklings then become petty thieves, prostitutes or slickers in order to eke out some sort of an existence.

The effect of one's action today is either punishment or reward tomorrow. No one can escape the maneuverability of God's Natural Laws.

So, as it is provable that the body of a human being is composed of various materials that can be dissolved and passed into other formations according to the law of PENETRABILITY, and:

As it is provable that the Creator utilizes these materials over and over again and again eternally for the construction and operation of other physical formations, and:

As it is provable that the soul is an entity of eternity that the Creator uses in an advisory capacity for the development of living creatures toward a higher state of intelligence:

Therefore, the disintegration of a physical body in strict accordance with Natural Laws is not the effect to worry about in this life, but it is the action of the Soul in the discharge of its duties to God and Humanity while acting in its advisory capacity to a human being that counts and decides whether one is to go up or down the scale of promotion or demotion in its next physical assignment.

So, human beings, do not sell your souls for money or vices, but live for God's PRINCIPLES and the Law of MANEUVERABILITY will then work in your favor, both in this life and also in the next one.

Yes, fight for Principles but not for money or material values. Fight for Democracy and freedom from human slavery to the last ditch of endurance and God will reward you accordingly.

Ten thousand times would I rather die in defense of Democracy and the rights of the people than to live one moment like the false-faced knaves who obtain riches from a gang of International financiers for spreading falsity, confusion and civil strife in an attempt to overthrow the American Form of Government.

Therefore, my stand is with the brave boys and girls within the United States Army, Navy and Air Service who have offered their lives in defense of DEMOCRACY, and I stand against the infernal subversives who would stab them in the back while they are thus engaged in their unselfish work.
