STAND TOGETHER

FOR THE AMERICAN FORM OF GOVERNMENT

COPYRIGHTED, 1939

BY ALFRED LAWSON

Address at Elks' Auditorium, Springfield, Illinois. Taken Verbatim by B. Freese, M. G. D. C. S.

UNLESS YOU KNOW THESE THINGS YOU ARE NOT EDUCATED

Two opposites are existent everywhere. Right and wrong.

So there are two forms of government on Earth today. One is right and one is wrong.

Right government allows every man, woman and child to be free and to enjoy a voice in the management of their own affairs.

The United States was formed right because it permitted its citizens to have a voice in making and upholding the laws under which they are governed.

The American form of Government therefore is free government. It permits the freedom of the press, freedom of assembly, freedom of speech, freedom of religion, freedom of everything that human beings should have.

But today the American form of Government is threatened. It is about to be lost to the people because the people have not enough sense to hold onto it.

The International Financiers who now control most of the property in America and have the American people tied up with an interest bearing indebtedness of over Three Hundred Billion Dollars are getting ready to establish the European form of Dictatorship in this country.

That sort of a government, I say, is wrong because it denies the people their freedom of speech, their freedom of press, their freedom of assembly, their freedom of religion and every other bit of freedom that the American people now enjoy.

These International financiers would have canceled the American form of Government and substituted the European form of dictatorship long before now but they could not agree among themselves as to which gang was to rule the people of this exceedingly rich land.

The Financiers have made a slaughter house of Europe because the people over there per-

mitted them to take away their voice in the management of their own affairs. They deny the people the freedom of speech, the freedom of assembly, the freedom of press, the freedom of religion.

That flag behind me is the Emblem of righteousness. It stands for the American Form of Government and the freedom of the people.

I am an American citizen and I intend to uphold the principles for which that flag stands. Furthermore I intend to do everything in my power to make the people of the United States stay free.

I want to tell some of you old codgers that I am going to fight for the rights of your children whether you do or not.

One doesn't have to have lived a hundred years to be an old codger. There are more old gazebos twenty-five and thirty years of age than there are at fifty or one hundred years of age.

You are just as old as you think and act.

When you spend your time telling about some old wise-cracker that lived several hundred years ago, you are just as old as his old bones are after they have remained embalmed for that length of time.

If you want to grow young, keep your face front-ways and look into the future. Don't look backward into the dismal past.

The framers of the American form of Government looked forward into the future. If they had looked backward we would have made a slaughter house of America as they have done over in Europe.

We have just as many kinds of animals in this country as they have over there.

Some of the slickers who sold stock in a manufacturing corporation that I was President of, told all foreigners to whom they tried

to sell stock, that I came from their country.

I didn't stop them from doing that because I had no proof that, during the past few thousand years, my ancestors were not inhabitants of all of the different countries on Earth.

There isn't a person in this Auditorium who knows what country their forefathers inhabited ten thousand years ago.

So as we cannot prove where we came from, we should not waste time quarreling about it. Our white progenitors certainly were not Americans five hundred years ago.

Another thing, there is no use scrapping about which backyard we pray in either.

God Almighty controls all Space and as that has no boundaries we should follow His methods by spreading out upon this little Earth and not quarrel about boundaries.

Look through a telescope as far as you can and you will see planets and stars and enormous formations without end that make this little Earth of ours seem like a pee-wee by comparison.

Then you brag about coming from some little spot on Earth and pretend that you are some wise creature. You ought to be ashamed of yourself.

It isn't the patch of ground that you live upon that counts so much, it is the principles upon which your government is based that you should be willing to fight for.

Inside of each and everyone of you there are hundreds of billions of menorgs. They are so small that you cannot see them with a microscope. And one of those little menorgs up in the center of your cranium runs you. Yes, that minute creature is YOU.

So do not make yourself feel too big when you talk about some other creature like yourself be-

cause he comes from some other yard.

If you will only treat that little menorg up in your knowledge-box right, he will treat you right. But, if you use those senses that God gave you to see, hear, taste, smell and feel with, to misrepresent to that little menorg about what is taking place outside of your physical body, then you are telling yourself something wrong and therefore you will be wrong.

We must build our social formation as the menorgs build our bodies.

Hundreds of billions of menorgs work together harmoniously to keep the physical body properly balanced. Each and everyone of them has a specific duty to perform and they all work in unison.

If the menorgs in my arm refused to do what I tell them to do this wing of mine would become paralyzed. If they refused to lift this foot of mine when I tell them to it would be useless to me.

Now, throughout the Earth there are different patches of ground mapped out as countries which are inhabited by millions of human beings, but instead of all of them working together to run the Earth peacefully as my body is run by the menorgs, each little clique of creatures fight one another and when the fight becomes general these different disorganizing disturbers of the peace paralyze the economic workings of the Earth.

The framers of the Constitution wanted the people of the United States to work together harmoniously for the good of everybody and they gave Congress the right to coin and distribute the use of money so that it would give everybody a purchasing power equal to their productive power.

So, if Congress will do its duty as authorized by the Constitution, the people will then get the Justice they are entitled to.

Heretofore the United States Congress has been unwatchful of the people's rights and has permitted international financiers to assume the ownership of their money system and, through their infernal interest collection swindle, whereby they not only force tribute for the loan of money but they force tribute for the use of credit also, they are now enabled to milk the American people out of four-fifths of their earnings.

The manufacturers, merchants, farmers, professionals and working people have all been caught in the same swindler's web and unless they realize this soon and permit Lawson to show them how to escape from it there is no hope for them in this world.

Almost a decade ago, I renounced the accumulation of money and properties and in order to prove my sincerity to the people I have remained a moneyless and propertyless man ever since.

Whatever my earnings have been since the establishment of the Direct Credits Society have been used for the benefit of this organization and aside from having a bed to sleep in, something to eat and a few pieces of clothing to wear, I have retained nothing for myself.

Since I have renounced wealth for my own private use and since I have been Commander-in-Chief of the Direct Credits Society, the financiers have taken away from the American Manufacturers Two Hundred Thousand factories.

There are none so deaf as those who will not listen.

During the past few years there have been more than three million American merchants who have lost their stores through the same tricky financial swindle that put out of business the manufacturers, and I am here to tell you that all small merchants will eventually be put out of business

by and through these same crooked methods.

The financiers have also taken away from the American farmers more than three million farms during the past few years. No farmer will be able to hold on to a farm much longer unless this infernal interest collection swindle has been abolished.

Unfortunately those who still have possession of a manufacturing plant, a store or a farm lack the vision to look ahead of the grind-stone in front of their noses before the financiers have clipped them.

Since the Direct Credits Society was started more than six million working men have lost their homes. They are still losing their homes, but many of them think that some day they are going to own more homes.

The people must put Congressmen at Washington to represent them, not the financiers, and it's about time that the people told these Congressmen just what laws they must pass for the benefit of the people.

The people cannot tell their Congressmen what laws they should pass unless they know what laws are necessary for their own good. The people cannot know what laws are necessary for their own good unless they have an entire program that has been planned to give Justice to Everybody and Harm Nobody.

The people must study the Lawson Program so that they will learn for themselves that it was planned for them and not for financiers.

Nature is capable, ready and willing to supply enough food in one state to feed every man, woman and child in all of the United States of America.

So it is combined criminality and lunacy on the part of the people to have to go hungry.

The menorgs have taught the people how to build machinery so that it is now possible for manufacturers in one state to make enough forms to supply healthful homes for every man, woman and child in all of the states of America.

The manufacturing plants of one state alone are capable of producing an automobile, radio and a temperature outfit for every man, woman and child in America.

One man, Alfred Lawson, has been able to furnish enough TRUTH BOOKS alone to feed the minds of the whole human race for thousands of years to come.

As these TRUTH BOOKS promulgate God's Natural Laws so they are clearly understandable by human beings, it is just mental laziness on the part of the people if they do not learn how to develop themselves and take advantage of God's magnanimous generosity to the Human Race.

There are none so dumb as those who will not learn.

The Direct Credits Principles are based upon God's Natural Laws as outlined in the three great books of LAWSONOMY which prove His physical, mental and spiritual manifestations of life.

So we believe in God, we believe in the upliftment of humanity and we believe in the American Form of Government.

Direct Credits for Everybody will take away nothing from anybody but the wrong privilege to cheat one another.

After the wrong privilege of cheating one another has been extirpated then the people will all have a chance to live the right life that God wants them to live.

When the people thoroughly understand the principles of Direct Credits; when the people thoroughly understand the principles of LAWSONOMY upon which the principles of Direct Credits are based; then the people will proudly shout in unison: Let's all STAND TOGETHER with LAWSON, for GOD, HUMANITY and THE AMERICAN FORM OF GOVERNMENT.

SUPER-WORK AHEAD

THE PREFIX FROM THE BOOK "MENTALITY"

BY ALFRED LAWSON

Man must now prepare for another step forward in his continuous march toward a higher state of intelligence.

This next step will increase the height, depth and breadth of his consciousness and will take several thousand years to complete.

During the interim the mind of man will outgrow his present narrow surroundings and he will explore fields beyond his present scope, sphere and density. He will actually outgrow his five usable senses and utilize penetrating powers such as he never dreamed of before.

As man's mind expands with the new order of things the earth, solar system and universe will shrink within his gaze.

He will develop his perspective of life with a shifting sight that will go up and down the scale and bring to view objects of different scope and density. He will see the atom as he now sees the solar system and vice versa.

For such powers he will have to develop new functions within himself to be able to discern the greater essentials of life.

Man will soon realize that his mind must be fed with sustaining substances as well as his stomach. To feed them both is essential. To neglect either is destructive.

They must both be fed judiciously and exercised and rested alternately to keep them in a state of efficiency.

The time will come when man will be able to navigate the cosmic oceans with as great ease and precision as he now navigates the oceans of water and air.

But to understand such things one's consciousness must be enlarged through greater scope.

When I look into the vastness of space and see the marvelous workings of its contents and ponder over the great opportunities for man's intellectual advancement I sometimes think that I was born ten or twenty thousand years ahead of time.

The lack of understanding of the purpose in life which I observe among creatures everywhere makes it appear as if mental advancement is impossible for the human race during my time.

But then I realize that the Creator makes no mistakes, is in no hurry and that He in-

variably sends a lone precursor to point the way to advanced stages long before it is possible for the masses to get there.

Still, even during this momentary stay of mine within this sphere, I have noticed that people pick up bits of the advanced information that I promulgate and in some instances, after many years of percolation, they are able to grasp the whole of it.

First they scoff, then they copy and finally they claim that they knew it all the time.

That of course could be overlooked if they copied my teachings as they are, but in most cases they not only steal my products but they adulterate them with their own senseless notions.

Ever since the publication of my first book, BORN AGAIN, in 1904, the so-called wise ones have helped themselves freely of my original presentations. They twisted them into their own words, and used them for gain, even though they are protected by Copyrights.

It also seems that no corporation is too big to use my inventions for their own gain, without asking my consent—though they are protected by Patents.

If the "wise ones" and the heads of big corporations stoop to such thieving methods what can be expected of the masses who get their miseducation from those at the top who are in power?

As the head thinks so the tail wags.

So to stop the surreptitious wagging of the tail, those pretentious frauds at the head of man's social and economic life must be shorn of their power to lead the people down hill through blind alleys and into the mire of degradation from which they cannot extricate themselves.

The reasoning faculties are developed by TRUTH and are destroyed by FALSITY.

Therefore, it is necessary that this seed of TRUTH be planted in fertile soil of untainted minds germinated from honest, intelligent people so that a harvest of master intellects may grow up capable of carrying forward to its goal the super-work mapped out for man by his CREATOR as outlined in the following chapters of this, the second book of Lawsonomy—entitled Mentality.
