THE FREE AMERICAN GOVERNMENT

BY ALFRED LAWSON

UNLESS YOU KNOW THESE THINGS YOU ARE NOT EDUCATED

During the year of 1929, financiers who controlled the money supply in America suddenly withdrew a large percentage of it from circulation and thereby threw into a state of stagnation the industry and progress in this great land of abundance.

More than 15,000,000 workmen were thrown out of employment and the national production of wealth in this great country was cut in two. Millions of willing workmen and business men were made paupers and forced into bread lines, soup kitchens and garbage cans for food to keep their bodies and souls together.

Milk dealers threw millions of cans of milk into the sewers because the people had no money to buy it while babies everywhere died for the want of it.

Out of the financial panic that existed therefrom the big financiers got control of the largest part of the wealth of the U.S.A. through foreclosures on mortgages that could not be met without the money to pay them.

More than 200,000 factories were taken away from manufacturers, as well as millions of farms and workingmen's homes.

It was the biggest single financial grab in history.

About that time Alfred Lawson was one of the foremost builders of Aircraft in the world. He was the inventor of the large Cabin Airliner such as are used in every country in the world today to carry large numbers of passengers within spacious cabins.

After a quarter of a century he had helped to build up the entire Aircraft Industry. He was courted by the biggest financiers in expectation that he would enter into partnership with them in their schemes of controlling the growing Aircraft Industry.

So as far as Lawson was concerned, he was all ready for future success as a multi-millionaire Aircraft Manufacturer and Airline Operator if he would go along with the financiers.

But he refused to tie up with the grabbing financiers and play their evil money making game. He was willing to show the world how the Aircraft Industry could be made useful to mankind but he was not willing to sell his soul for the money that could be gotten out of it.

After witnessing the terrible sufferings of human beings as a result of the withdrawal of money from circulation by the financiers, he decided to try and help the people by showing them how they could help themselves.

So, during the year of 1931, he founded the Direct Credits So-

ciety, to head off a financial DICTATOR in America.

This country was in a bad way in 1931 and for several years afterward, as the financiers had clamped down on everything and were about ready to make the change from the American form of Government to a dictatorship.

BUT America has no DICTATOR yet, notwithstanding all efforts of International Financiers who now control Europe and Asia, through their infernal Dictators, to sneak one in.

The Direct Credits Society is not opposed to any race but we are against the financial system that puts the people under the heel of tyrannical Dictators.

Lawson's clean cut program states that, inasmuch as the Constitution of the United States grants authority to Congress to "coin money and regulate the value thereof" that private financiers have no right to assume such powers and are, therefore, conducting their money control and wealth grabbing game illegally.

So he notified the people that it was their duty to instruct their Congressmen to do as the Constitution authorizes by taking control of their money and credit system and stop all further illegal tribute collection from the people by privateers.

Among other things, he notified the people that they must protect their freedom of action by standing solidly back of the AMERICAN FORM OF GOVERNMENT and not permit a DICTATOR to get control of their country and their lives.

So, in 1931, Lawson gave up his career as an Aircraft Industry Builder with its stupendous money earning possibilities to live a moneyless, propertyless and payless life as the people's economic coach and he has stuck to that job, conscientiously ever since.

There is not a financier in the world big enough to hire Alfred Lawson. He still stands solidly for the AMERICAN FORM OF GOVERNMENT and vigorously says, NO DICTATOR in the U.S.A.

To give up the opportunity to make millions of dollars for himself from the Aircraft Industry, the foundation of which he built, and then give his valuable services to aid suffering humanity and live a moneyless, propertyless and payless life was, he says, the greatest achievement of his life.

The American Form of Government means that the people shall enjoy the right to go to the polls and vote for their own representatives to govern them according to their own ideas while the Dictator form of Government

gives to the people no rights whatsoever to choose their own representatives.

During 1932, when the people of this rich country were suffering the worst from the effects of financial depredations, the people used their voting power to change from one set of political representatives to another.

If, at that time, the people of the U.S.A. had instructed their new representatives to take full control of their money system and run it for the benefit of themselves as Lawson advised them, instead of permitting it to be run in favor of the financiers, this country would now be sitting right on top of the world today with the most prosperous and happy people ever known to mankind.

But the people did not take that advice then and so their political representatives had to do the best they could under the old degraded financial system.

The new government was thus forced to borrow money from the financiers and pay them tribute for the use of it, in order to give employment to the people to keep them from starving.

Quite naturally then, the national indebtedness was increased by billions of dollars annually that was used to feed a hungry people.

Better an increased indebtedness any time than the starved carcasses of the populace.

A nation gets pretty low morally when it puts the lives of human beings below a tribute collecting money system.

So, in 1936, when the people were given another chance to vote for their national government they naturally chose the one who had furnished them with jobs and given them food to eat.

Now, according to the American form of Government the people had a legal right to do that, but according to the Dictator form of government the people have no voice in the matter whatsoever.

Over in those Dictator controlled countries of Europe and Asia, the people are now starving by the millions, but they have no voice in the management of their own affairs—they cannot go to the polls and change their Dictator government. So they die like flies in a spider's web without a chance to help themselves.

In 1940 the people of the U.S.A. were given another opportunity to vote for the representatives whom they preferred, and, for the third time chose the government that had fed them by the use of borrowed money.

For several years the big politicians fought each other like

cats and dogs over that money borrowing proposition, but when the European and Asiatic financial dictators threatened to invade America and enforce their despotic rule upon the American people they forgot their party quarrels and both the winning leader and the losing leader after the election was over, united for a common purpose of defending the principles of DEMOCRACY against the barbarian hordes threatening to establish their financial dictatorship in this country.

So now, practically the voters of the entire nation, through their Leaders, stand ready to fight to uphold the freedom of action their forefathers fought so valiantly to give them.

These European and Asiatic Dictators have not been elected by their people at all. They have surreptitiously grabbed the governmental machinery by despotic force and have shackled the people through tyrannical cattle-driving methods. They have forced the people into abject slavery without a voice concerning the way they are to be managed.

True patriots want none of that stuff in America, but there are dupes who are being misled toward it by the touts and spies of the alien Dictators who are spending millions of dollars in false propaganda trying to make traitors out of American citizens.

These alien advance agents are to be found in every walk of American life buzzing falsity into the ears of the people.

They promise the weaklings big positions after the free American Government has been overthrown and their foreign Dictator is in the saddle rough riding over the bodies of American children.

These undermining sneaks work on the sympathies of the women to a large extent by pretending that they stand for PEACE and that Americans should not fight against the European and Asiatic Dictators. They tell them that they will be licked if they do.

That is the sort of stuff they preached to more than a dozen peace-loving peoples in Europe before they over-ran their countries with death dealing machines and enslaved them.

These touts of foreign dictators have made a very disreputable word out of PEACE. They talk of the virtues of the peaceful lamb without mentioning that they butcher the lamb and fill their beastly stomachs with it.

They don't tell their intended victims that the true definition of the word PEACE is (1) INACTION (2) DEATH.

If everybody would learn to re-

peat the word UNSELFISHNESS and eliminate that double-crossing death dealing word PEACE from their vocabulary entirely, greater advancement toward a higher state of intelligence by human beings could be expected and less cheating and killing one another for their earnings would be the result.

But no, it is much easier to cry out PEACE than it is to practice UNSELFISHNESS.

Now, in these days, when courageous men and women have joined the American Army, Navy, Marines and Air Service to protect this nation against invasion, the peace mongers who aid and abet the foreign sneaks who set fire to factories or blow up munition plants, actually aids and abets premeditated murder of the worst kind, because, in such cases innocent people lose their lives as a consequence.

There is a very great difference between fighting an enemy face to face in the open than stabbing him in the back when he isn't looking, as these sneaking spies, traitors and saboteurs do.

So I ask you well-meaning Americans not to be pulled into such a degraded position by these alien vipers who will turn on you and treat you as they are now treating your own countrymen who are fighting to defend you, your parents, your children, your homes and your country.

Do not misunderstand what this writer means. He does not want to harm anybody. He has never harmed a man, woman or child during his whole life, and no man, woman, or child has ever harmed him. That happened according to the Law of Maneuverability from which a certain reaction comes from every action.

But this writer lives for God's pure principles that cannot be understood by selfish people. He takes no part in the quarrels of politicians, although the operation of free government makes party politics necessary.

He recognizes the right of free speech, free assembly, free press, free religion and race friendship.

He enters into no personalities nor argues with anybody about anything. He presents the TRUTH to the people and it is their privilege to accept it or reject it.

But he tells the people of the Western Hemisphere, most solemnly, that unless they stand together as one body and fight for freedom that these treacherous despots of Europe and Asia will put the shackles of slavery upon them in the same manner that they have already done to all of the peace loving countries of the Eastern Hemisphere.
